

The Aphrodite Beauty Spa & Health Clinic is pleased to offer the Quantum Resonance Magnetic Testing

Free of charge

Just call 2740 from your room to book the appointment

How does it work?

The Quantum Resonant Magnetic Analyser is a machine that rapidly reads the magnetic frequency and energy of human body to test the health status and to suggest recommendations.

**Simply hold the sensor in your palm, and
your complete health analysis will be available within
minutes**

Principle of Analysis

The different signals of electromagnetic waves emitted by human cells represent the specific condition of human body – good health, sub-health and deficiency. Quantum Resonance Magnetic Analysis is a rapid, accurate and non-invasive testing method suitable for checking of sub-health conditions. Using quantum medicine as its

theoretical basis, it collects data from the magnetic field of human cells for scientific analysis. This provides the client with a guide to determining their health status and problem areas, and with prevention recommendations. The accuracy rate of the analyser device has been proven to reach 95%.

Over 30 main health analysis data will be obtained, including:

- | | |
|---|---|
| • Basic Physical Quality Analysis | • Skin Analysis |
| • Blood Sugar Analysis | • Endocrine System Analysis |
| • Bone Mineral Density Analysis | • Immune System Analysis |
| • Cardiovascular, Gallbladder, Gastrointestinal and Gynaecology Function Analysis | • Vitamin, Mineral and Amino Acid Deficiencies |
| • Kidney, Liver, Lung and Pancreas Function Analysis | • Human Toxins and Heavy Metals Analysis |
| • Allergy Testing | • Body Composition Analysis, <i>and much more</i> |

Benefits of Quantum Diagnostics:

- Determines the current health of organs and predicts their wellbeing for the future
- Provides complete and full health report explained in a simple way
- **Up To 41 health reports (English Version) produced in just 2 minutes**
- The software allows you to select all or just individual test reports of your choice
- Replaces the need for ultrasonic, nuclear magnetic resonance or radiography.
- The analysis is non-invasive and will tell you the condition of your health without blood analysis or radiation.

Disclaimer: Patients who have pacemakers are prohibited from doing this test. This product is not intended to diagnose, treat, cure, or prevent any disease. The appointments are subject to availability.
